

## Our people

Keech Hospice Care is supported by many people who offer knowledge, strength and direction to our services all year round.

We are governed by our General Council of Management, who are responsible for the overall running of the charity, setting out our strategic vision and overseeing all major decisions.

The day-to-day running of the charity is managed by our Chief Executive and the Senior Management Team.

We also have Ambassadors who use their high profile to raise awareness of the work of the charity.
