

Stepping Stones

This special path lies in the grounds of our children's hospice. It is dedicated to all the children and families who use, or have used, the hospice. For a minimum donation of £50 an inscription of your choice can be engraved on one of the paving stones.*

You might choose to leave your own name, the name of someone special to you, your group or company name or a special message of support for the hospice and the families within our care.

Whatever you decide, you will leave a lasting impression for years to come and will be helping us continue our vital work for local children and their families.

Once the stones have been laid, we'll invite you to walk along the Stepping Stones footpath and see your inscription.

"I've bought a brick. I'm honoured to support the charity and I hope you feel like doing the same!"
Jake Humphrey, Formula 1 Presenter and Keech Ambassador.
