

Skydiving events

The sky's the limit when it comes to supporting Keech Hospice Care!

Our popular tandem skydive gives you the opportunity to jump from a plane travelling at 10,000ft and freefall at speeds of up to 120mph, whilst strapped to a professional instructor who will do all the hard work for you!

Or, if you'd rather go solo, then the static line jumps and accelerated freefall may be the dive for you!
