

Community Presenters

Is your community group or organisation looking for interesting speakers?

Keech's team of Community Presenters are available to present informative talks suitable for schools, youth groups, churches, clubs and associations or any other group wanting to find out more about the vital work of our adult and children's hospices.

By booking a speaker from Keech Hospice Care, you'll be guaranteed a presentation that will hold your audience's attention whilst also helping us to spread the word about the important work we do.

Community Presenters are also available for cheque presentations.
